Project Name	ShopSmart: Your Digital Grocery Store Experience
Maximum Marks	4 Marks

Customer Problem Statement Template:

Create a problem statement to understand how users experience the online grocery shopping process in **ShopSmart**.. This template helps our team focus on real customer challenges such as product search, ordering, payments, and delivery so we can build a smooth, fast, and reliable digital grocery platform.

A clear customer problem statement helps the team identify pain points in browsing, cart management, checkout, and order tracking. It allows us to see the system from the user's perspective and improve their overall shopping experience and satisfaction.

Section	Content
I am	A customer who shops for groceries online using ShopSmart.
I'm trying to	Easily find products, add them to my cart, and complete my purchase quickly.
but	Sometimes products are hard to find, out of stock, or the checkout process feels slow and confusing
because	The system may not have smart search, proper stock updates, or a smooth checkout flow.
which makes me feel	Frustrated and less confident about shopping online.

Problem Statement Table:

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer shopping for daily groceries online	Quickly find products and complete my order	Some items are difficult to search or unavailable at checkout	Inventory and search system are not optimized	Frustrated and dissatisfied with the shopping experience
PS-2	A store admin managing products and orders	Manage product listings and track customer orders efficiently	Order updates and stock management are sometimes delayed	There is no fully automated inventory and order management system	Stressed and overwhelmed.
